## PRESS RELEASE

### PREMIERE TRADING COMPANY LAUNCHES NEW VERSION OF ITS CUTTING EDGE TRADING SOFTWARE AND EDUCATIONAL RESOURCES

TradeGuider Systems Introduces Version 4.0 of Real-Time and End-of-Day Trading Software,  
Most Comprehensive in 20 years

Chicago, Ill (November 2009) – Traders looking to improve their success rate with a proven methodology over 100 years old now can with the release of TradeGuider ([www.TradeGuider.com](http://www.TradeGuider.com)) Real-Time and End-of-Day 4.0. Traders can now read charts, clearly understand them, have the trade signals supported by comprehensive dialog boxes and take small, vital steps to becoming successful, “smart money” traders.

Over the last seven years, TradeGuider’s Volume Spread Analysis™ (VSA) -focused software and education programs have proven to serious traders the value of the methodology in “lifting the fog” on the path to successful trading. The VSA methodology is not based on mathematical formulas. It does not require back testing. It works by dynamically analyzing supply and demand in all markets in any time-frame and based on the Wyckoff principle of supply and demand, which is well proven and over 100 years old.

*Stocks & Commodities* magazine once called TradeGuider signals “the best ever seen”. The release of TradeGuider 4.0 is noteworthy because of the signal enhancements (making them even better), incredible new technology and information it provides traders, including;

- Complete overhaul of rules sets and signals - the first in 20 years
- New Diamond trending system
- Multiple monitor support
- VSA-centric tick charts
- Point and Figure charts
- Trade setup indicator sets
- Trade setup scanner
- Further compatibility with third party data-feeds, starting with Transact ActT
- Complete overhaul and refinement of educational dialogue boxes
- Plus a host of updates and refinements

-more-

## TradeGuider Launches Software v4.0

The TradeGuider Real-Time Version 4.0 has greatly refined and improved the Volume Spread Analysis™ (VSA) methodology set by the TradeGuider team of VSA experts, all trained by veteran syndicate VSA trader Tom Williams. Each signal now appears on the bar as it closes and the information boxes for each signal gives the trader or investor very specific information regarding the background, trade set-up, and market direction.

“We’re very proud of TradeGuider 4.0”, says Gavin Holmes, CEO of TradeGuider Systems International, “Our goal has been to produce a comprehensive trading and educational package that takes a multi-directional approach to tracking the trading activity of the ‘smart money’. Version 4.0 now makes it even easier for traders to be *more* successful with signals, charts and more than have ever been available before.”

Holmes adds that the new processes can greatly increase trader’s chances of turning into a consistently profitable trader, and V4.0 can be a life-changing experience for over 90% of retail traders who currently lose in the markets.

TradeGuider RT software is valued at \$4,999.95 but individuals can subscribe to RT by a lease option which also includes a VSA Club (TradeGuider’s Online Trading Community) subscription for only \$299.95 per month (three-month minimum subscription). TradeGuider EOD software is valued at \$2495.95, however a monthly lease and VSA Club subscription is \$199.95 per month (three-month minimum subscription) and a VSA Club subscription alone is \$149.95 per month. All customers of TradeGuider v4.0 will also receive the company’s unique 13-part “Getting Started” course, valued at \$995.00, for FREE.

### **About TradeGuider Systems International**

TradeGuider Systems is a company devoted to providing software and supportive educational series of seminars and webinars to help traders and investors of every level learn to better follow and predict market manipulation. Its one-of-a-kind premier software trading analysis platform and methodology is based on the principles of Volume Spread Analysis™ (VSA) researched and developed by veteran trader, Tom Williams. VSA builds on the pioneering work of Richard D. Wyckoff, a famous 1920’s trader who based his trading decisions on supply and demand and how they are directly linked to professional activity, “smart money” trading. TradeGuider Systems International is a global operation with offices in London, Chicago, Kuala Lumpur and Sydney. For more information about TradeGuider Systems International visit [www.tradeguider.com](http://www.tradeguider.com).
